About me

Chief Product Officer and senior product leader with 20+ years of experience across startups, scale-ups, and global digital platforms. Deep expertise in product-led growth (PLG), marketplaces, payments, and AI-powered products, with a proven track record of building high-performing teams, establishing scalable platform foundations, and driving long-term engagement.

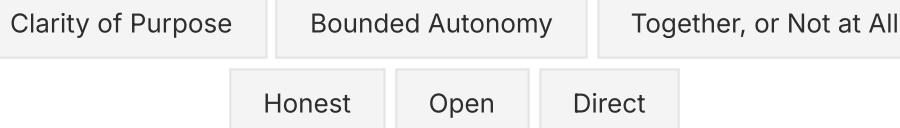

I thrive in fast-paced, purpose-driven environments, owning complex product domains end-to-end while setting clear direction for teams to execute autonomously. Extensive experience leading product managers and cross-functional partners across identity, payments, fraud, and compliance within regulated fintech and marketplace environments.

Currently working in a fractional capacity alongside two founders and top-tier engineers to bring Vendo AI to market: an agentic marketing analytics co-pilot powered by LLMs, helping marketing teams unlock insights and data-driven decisions.
